3.2.2																				
3.4.1																				
Total in WP 3	7 items to evaluate																			
4.3.1																				
4.3.2																				
4.4.1																				
4.5.1																				
Total in WP 4	10 items to evaluate																			
5.1.1																				
5.2.1																				
5.2.3																				
5.3.1																				
5.3.2																				
5.4.1																				
Total in WP 5	13 items to evaluate																			
6.1.1																				
6.1.2																				
6.2.1																				
6.2.2																				
6.2.3																				
6.2.4																				
6.3.1																				
6.3.2																				
Total in WP 6	20 items to evaluate																			

The five items has to be evaluated using the Methodology for Testing and Validation of e-Applications created as D7.1. Those items are:

- **The usability of the collaborative environment in the ENRICH project** (done [www.musicalia.it/sus/](http://www.musicalia.it/sus/) as the System Usability Score – *SUS*);
- **Migration Tool developed in WP 3** i.e. 3.1.1-3.4.1;
- **Tools for creation of virtual documents by researchers developed in WP 4** i.e. 4.2.1-4.5.1;
- **Possibilities for sharing of large data sets investigated and developed in WP 5** i.e. 5.1.1-5.4.1;
- **Personalized Translation Interface developed in WP 6** i.e. 6.1.1-6.3.2.
- **The evaluation is currently going on the spots marked in green.**
